

Carlos Ezequiel Bordon

Senior DevOps Engineer | Site Reliability Engineer | Platform Engineer

Professional Summary

Senior DevOps Engineer with 8+ years of experience designing, automating, and operating cloud and on-premises infrastructure. Strong expertise in Linux, AWS, Kubernetes, Docker, Python, Bash, Infrastructure as Code, and CI/CD. Experienced leading DevOps teams, improving deployment reliability, building automation tooling, and supporting production environments. Passionate about Platform Engineering, SRE practices, automation, observability, and continuous improvement.

Technical Skills

Cloud: AWS (EC2, IAM, S3, AMIs), Google Cloud Platform
Containers: Kubernetes, Docker, Docker Swarm
IaC: Ansible, Puppet, Terraform
Languages: Python, Bash
CI/CD: GitHub Actions, Jenkins
Systems: Linux, Git, Networking, Automation, Troubleshooting

Professional Experience

Wazuh — Senior DevOps Engineer | Jul 2021 – Aug 2026 | Remote

- Maintained deployment repositories for Kubernetes, Docker, Puppet, Ansible, OVA images, and AWS AMIs.
- Maintained the Bash-based Wazuh Installation Assistant used to deploy core platform components on Linux.
- Administered AWS environments including IAM, EC2 and S3 for development and testing.
- Developed internal Python tooling to automate infrastructure provisioning across AWS and private environments.
- Led a DevOps sub-team, coordinating work, mentoring engineers, improving delivery processes, and participating in hiring.

Nubity — DevOps Engineer | Feb 2021 – Jul 2021

- Provisioned AWS and GCP infrastructure with Terraform.
- Maintained cloud services and automated deployments.

Ayi & Asociados — DevOps Engineer | Mar 2019 – Jan 2021

- Built CI/CD pipelines with Jenkins.
- Automated deployments with Docker Swarm.
- Administered Linux infrastructure.
- Supported Kubernetes clusters on Oracle Cloud.
- Delivered Docker and Kubernetes training.

Ayi & Asociados — Jr. Operator | Jul 2018 – Mar 2019

Data Center operations, LDAP administration, AWS IAM, workstation support.

Atento — IT Analyst / Supervisor | Aug 2009 – Jul 2018

Infrastructure support, Active Directory administration, operations leadership, KPI analysis and continuous improvement.

Leadership

Led a DevOps division responsible for task planning, mentoring, performance follow-up, process improvements, and supporting engineers' professional growth.

Education

Systems Analyst — Instituto Superior Santo Domingo (2015-2018)
